Updates to Whitley County, Indiana Cemetery Transcriptions thru December 2007
Cemeteries read and information compiled by Jeanette Brown

In 1996, members of the *Genealogical Society of Whitley County* began transcribing the information on the grave markers for all cemeteries within the county. These readings were then published on the *GSWC Website* at <http://genealogy.whitleynet.org/cem.htm> by Dr. Donald Gradeless. In 2001, the cemetery readings were updated and the transcriptions were published in book form by the society.

During the last two months of 2007, Jeanette Brown undertook the task to update the cemetery readings with the burials in the county that occurred after the 2001 publications. Not all cemeteries are represented here since some of the cemeteries in the county are no longer active. Included along with the new burials are some updates and corrections of the past readings.

This reading is current through the end of December 2007. Jeanette obtained information from the local funeral home directors for burials made after she had read the cemeteries.

Rather than attempt to update the online listings and the previously published books, it was decided to publish this update to be used in conjunction those resources.
